Report on Slow and Advanced Learner- 2020-21

Department of Commerce

30/04/2021

The IQAC had recommended a special program to provide support to slow and advanced learners in the departments.

The Department of Commerce had sorted the students into slow and advanced learner based on their HSC percentage. The slow learners were required to approach their mentors for academic related doubts.

The respective mentors conducted special sessions for teaching the weak students, assigning projects, practice test, assignments for better learning of concepts.

The Students mostly found subjects like Accountancy and Economics to be difficult. Therefore a bridge course was conducted by the department for teaching basic concepts and providing a foundation to the students for these subjects. A test was conducted towards the end of the session to evaluate the progress of students.

The test was conducted in the online mode using MST.

Advanced learners were motivated to read more concepts using digital library access to enhance their knowledge and skills thereby helping them to prepare for placements and participation in extra- curricular activities.

Students were motivated to improve their communication skills by attending career guidance lectures and personality development sessions.
