Report on Slow and Advanced Learner- 2021-22

Department of Commerce

30/04/2022

The IQAC had recommended a special program to provide support to slow and advanced learners in the departments.

The Department of Commerce had sorted the students into slow and advanced learner based on their HSC percentage. The slow learners were required to approach their mentors for academic related doubts.

The respective mentors conducted special sessions for teaching the weak students, assigning projects, practice test, assignments for better learning of concepts.

The Students mostly found subjects like Accountancy and Environmental Studies to be difficult. Therefore the department conducted extra lectures for teaching basic concepts and providing a foundation to the students for these subjects. Assignments were given to students for assessment of the concepts by respective mentors.

Advanced learners were motivated to read more concepts using digital library access and college library to enhance their knowledge and skills thereby helping them to prepare for placements and participation in extra- curricular activities.
